

Successful Supervision

with

Community Health Workers

Successful Supervision with CHWs* aims to build the capacity of supervisors to provide more responsive and informed supervision for the CHWs in their team. Workshop participants will learn about available resources and apply practical tools designed to improve supervisory practices.

This two day in-person workshop focuses on key areas identified and prioritized by CHW supervisors and informed by insights from subject matter experts in community health, education, and related fields.

Topics will include:

- ✓ Establishing Role Clarity
- ✓ Recruiting
- ✓ Hiring
- ✓ Onboarding
- ✓ Integrating Staff Development
- ✓ Cultural and Structural Factors
- ✓ Responding Effectively to Supervisory Challenges
- ✓ Navigating Structural and System Challenges

September 20 & 21

9 AM to 3:30 PM

Community College of VT – Montpelier

*There are over 150 job titles that describe the work of CHWs. These may include care coordinators, outreach workers, health educators, community support specialists, patient navigators, etc.

Registration opens July 17!
